01 // AUTOMATIC MULTI-WAN

Sub-180ms Session Failover

Hardware Bidirectional Forwarding Detection senses coax or fiber cuts in 3 heartbeats and shifts active credit card batches to Starlink and 5G without rebooting terminals.

02 // PAYMENT & PATRON SPLIT

Zero Guest Wi-Fi Congestion

Dedicated Layer-2/Layer-3 VLAN segmentation prevents 200+ patio phones from saturating bandwidth or probing your bar registers, kitchen printers, and office PCs.

03 // DIRECT ORDERING & VOIP

Missed-Call SMS Text-Back

When the host stand is slammed, our VoIP system texts callers an instant link to your commission-free menu, catering inquiry form, or table waitlist.
